

SPECIAL

MEMBER LUNCHTIME SLIPPING 2020-2021

Slip your vessel at a special members' rate for a period of ONE HOUR over the lunch period in the travel lift, to clean the hull, check anodes and prop, inspect antifoul and minor repairs.

This is strictly a one hour slipping fee.

Vessels must be presented at the entrance to the travel lift ready to be lifted out (eg. back stays removed).

They will be returned to the water after one hour, if extra time is required, the slipping fee will be charged at the normal rate.

When the vessel is slipped, if move to the yard, full slipping and storage charges will apply (this is conditional on yard availability and the vessel will be returned to the water to be slipped and yarded when facilities become available).
